

WHITE PAPER V.2

TOKEN NAME: KEROZEN PUSH

SYMBOL: KEROZEN v2

DECIMAL: 18

NETWORK: BINANCE SMART CHAIN

INTRODUCTION

The KEROZEN PUSH token is a community property that will reward its holders for years to come so they can take advantage of the ever-increasing floor price. It is created on the Binance Smart Chain and has 320 Trillion coins (320,000 .000.000.000)

WHO ARE THE CREATORS OF KEROZEN PUSH?

KEROZEN PUSH is a cooperation between French and Arab business leaders in the sale of jewelry, textiles, Yachts and who wish to sustain their profitability through cryptography.

In total, more than 237 stores around the world are more than ready to receive payments with the KEROZEN token. Likewise people in partnerships and contracts with third parties of governmental structure are with us and ready for the cause. More than ever, KEROZEN PUSH will be a profit token for its holders and all supporters of physical sales and purchases concerning our sales domains to all

- **MARKETING PORTFOLIO**

SECURITY

In the current era of crypto, there are unfortunately many scams and raffles, where cash has been taken from the holders. By locking liquidity into Pancakeswap for many years the community is assured that they can freely hold and trade KEROZEN tokens without fear of cash being stolen. KEROZEN is also community owned and managed, which means complete decentralization. In addition, Audits will be carried out frequently in order to ascertain the authenticity of the project and the correction of the faults that will be necessary.

VISION

After having gone through all the stages of the launch, our goal will be to be audited and to bring the project to be listed on at least 5 CEX during the first year.

In addition, our vision of reaching the value of \$0.000007 in 2024 is another objective which will give us another certainty in order to move on to the stage of creating our Blockchain PUSH (PUSH) without forgetting partnerships with companies and stores. who will now sell with PUSH
